

IP Office Essential Edition

For Essential Business Communications

Overview

The IP Office Essential Edition is the foundation upon which to build your IP Office solution. Providing the necessary mobility, call handling and routing functionality for IP Office, Essential Edition helps ensure small businesses have the communications tools they need to operate effectively and efficiently.

One number access, caller ID, dial-by-name, automated attendants, conferencing, voicemail, and more. Essential Edition provides the "must haves" small businesses need to enhance their communications with customers and colleagues and streamline their operations.

Capabilities

- One Number Access Provide customers and others with just your office phone number and have all calls ring simultaneously on your mobile phone, eliminating missed calls when out of the office or away from your desk.
- Dial By Name/Extension Callers can easily reach the person they want to connect with by simply typing the name or extension on the phone keypad.
- Voicemail A range of choices that enable staff to stay connected regardless of where they are. Retrieve voicemail messages from the keypad on any telephone, through the contextsensitive display on an Avaya phone, or via email (voicemail messages may be forwarded to email as an audio file attachment).

• Automated-Attendants - Program up to 40 automated attendants (maximum 6 simultaneous calls) to handle almost any customer situation. Customize caller greetings so key clients receive a personal message and are routed directly to the most appropriate person or team.

Benefits

- Efficient call handling Through touch tone prompts, quickly route customers to the right department to save your time and their's
- Convenience Enable callers to easily enter the name of the representative they seek for fast, personalized attention
- 24-hour access Customized voicemail greetings for each member of your staff enables customers to feel connected even when you're not there.
